# A Note from the Director—Lynne Clemens

The staff at NR Recreation would like to thank the community for being so supportive over the past two years as we try our best to navigate through the fluid guidelines and changes associated with the Covid Pandemic. We feel very fortunate that we have been able to offer programming throughout this entire pandemic excluding the first 3 months. Although our programming has been different and challenging to offer, we have learned so much and have found ways to still make programs so much fun even if children are masked and socially distant. We have found that kids just being in the same room are having so much fun. They are completely ok with sitting at a desk. They are still being social and still able to participate as a group even if they are each doing the activity from their own station. Kids are without a question the most adaptable to these guidelines. I personally have learned to appreciate the joy of working with kids more now than ever. They bring so much happiness and joy and excitement to each program and make me forget about the pandemic even if just for an hour!

You may have noticed that we have also continued to only offer our brochures electronically instead of printed copies. I think this has also been a positive change. It saves money and paper and time. We hope the community is finding it easier as well. Our brochures are also a bit smaller so we are sure to only offer what seems to fall within current guidelines. We have also been adding programs on a rolling schedule and announced them by email and facebook posts and press releases through the Transcript. By doing this we are able to offer more during better times. With these changes, be sure to keep up with our website, emails and FB posts so you don't miss out on our fun!

As always, if you have any ideas for programs, suggestions for improvements or questions, Our doors are always open!
